CORE COMPETENCIES

- Full-Stack Web Development
- Web Application Development
- Software Development
- API Integration
- Database Design & Management
- Business Process Automation
- Generative AI Solutions
- Cloud Deployment (AWS)

PROFESSIONAL SUMMARY

Junior Full-Stack Developer with 1 years of hands-on experience designing, developing, and maintaining multilingual e-commerce web applications. Strong front-end proficiency in HTML, CSS, JavaScript, and React/Vue.js, complemented by solid back-end skills in database management, API integration, and business automation. Adept at collaborating across teams and delivering responsive, cross-browser compatible solutions from concept through cloud deployment.

WORK EXPERIENCE

- 2025 - Present
BeBlock Bangkok Co. Ltd.,
Web & Automation Developer
 - Design, develop, and maintain high-performance, full-stack e-commerce web applications with responsive, interactive user interfaces using **HTML5**, **CSS3**, **JavaScript**, and modern component-based front-end frameworks.
 - Architect multilingual (Thai, English, Japanese) web platforms supporting dynamic product pricing, order workflows, and real-time visualization.
 - Develop **business automation workflows** using Google Apps Script and Google Sheets, including payment timers, QR verification, cleanup routines, and automated **email notification triggers**, streamlining operations and reducing manual intervention.
 - Manage **cloud deployment** on AWS EC2 with consistent 99%+ uptime, ensuring cross-browser compatibility and optimal site performance for international users.
- 2024 - 2025
A-HOST Co. Ltd.,
Cloud Engineer & IT Support (Internship)
 - Built a **Vue.js** security dashboard to visualize firewall log analytics, an AI-based firewall log analysis system to detect anomalies and security threats., collaborating with stakeholders to present threat insights through interactive charts and **automated reporting**.
 - Designed and maintained **SQL databases**, supporting data extraction, categorization, and threat tracking for security analysis.
 - Integrated OpenAI API via Python scripts to generate automated threat assessment reports for leadership, replacing manual Excel processes and eliminating third-party tool dependencies.

KEY PROJECT

- Custom Acrylic Product Website | Beblock Bangkok Co. Ltd.,
 - Developed a multilingual **e-commerce web application** supporting Thai, English, and Japanese users, featuring automated order processing, dynamic pricing calculators, and payment workflows.
 - Implemented complex business logic for tier-based product pricing, handling multiple product types and customization parameters within the **database**.
 - Built end-to-end **automated systems** using Google Apps Script, integrating Sheets, email notifications, and QR code verification to streamline customer journey and order management.
- Firewall Log Analytic with Generative AI | A-HOST Co. Ltd.,
 - Developed internal **web application** to automate security reporting, reducing monthly report generation from hours to minutes and replacing manual Excel workflows.
 - Engineered an automated data pipeline to extract firewall logs, categorize threats, and populate a **SQL database**, enabling searchable, trackable security insights.
 - Created a **Vue.js** security dashboard with interactive visualization of threat analytics, integrating **OpenAI API** to generate executive-level threat assessment reports.

TECH SKILLS

- | | | | | |
|--|---|--|--|---|
| ● Programming Languages
HTML5, CSS3, JavaScript, C#, Python, SQL, Java, TypeScript | ● Frameworks
Vue.JS, React.JS, React Native | ● Web Development
Responsive Design, RESTful APIs, unicorn, JSON. Canvas API | ● Mobile Development
Android Studio
(Java/Kotlin/XML) | ● Cloud & Deployment
• AWS EC2, WinSCP, Git |
|--|---|--|--|---|

SOFT SKILLS

- Design Thinking & Solving Problems
- Time Management
- Creative Thinking
- Team Collaboration
- Attention to details

OTHER SKILLS

- | | | | |
|--|---|-------------|-------------------|
| ● Adobe Creative Cloud
(Photoshop, Illustrator, Premiere Pro, Audition) | ● Microsoft Office
(Word, PowerPoint, Excel) | ● FL Studio | ● Davinci Resolve |
|--|---|-------------|-------------------|

LANGUAGE

- Thai (Native)
- English (TOEIC 675)
- Japanese (JLPT N4)

EDUCATION

- **Bachelor of Science (BSc)**
Information Technology (GPA: 3.15)
Thai-Nichi Institute of Technology (TNI) | 2021-2025
